

Animal Profile: Carnivores!

Carnivores are animals and plants that eat meat. Using our library in the Nature Exchange, find your favorite carnivore! Remember: The more you put into this animal profile, the more points you can earn.

What is the name of your animal? _____

Describe what your animal looks like.

Describe your animal's habitat (where it lives).

What animals does your carnivore hunt? _____

Does your animal live alone or with a group? _____

Is this animal endangered? Endangered means that it is threatened with extinction.

Yes No

Draw your animal in its habitat (where it lives).
