

Not Feeling Well?

In order to promote a safe and healthy environment for all guests, the Center for Disease Control and Prevention advises that guests who have a fever, rash, sore throat, and/or red eyes, refrain from visiting public places such as Kidspace where a large number of people congregate.

Kidspace works with safety experts to determine the best cleaning products and practices to safeguard against infectious bacteria, viruses, and fungi. Hand sanitizer dispensers are located throughout the museum for guests and staff use. Kidspace will continue to monitor all aspects of the guest experience to promote a safe and enjoyable learning environment.
