

Full Name \_\_\_\_\_

Birthdate \_\_\_\_\_ City \_\_\_\_\_

## Space Profile

Outer space is huge and there is a lot going on: stars, nebula, planets and black holes! Choose something that you would love to learn about. Use our library in the Nature Exchange to research. Remember: The more you put into your profile, the more points you can earn.

**What is the name of what you are studying?** \_\_\_\_\_

**Draw your outer space object here** (extra points for labels).

**Can you see this without a telescope?** \_\_\_\_\_

**What are three facts you found out about your space object?** (Write more on the back for additional points.)
